3 STAGE FILTRATION SYSTEM

Effectively reduces harmful chemicals, heavy metals, chlorine, odors, discoloration, cloudiness, VOCs, and other impurities, while helping prevent scale buildup for cleaner, healthier drinking water.

UF ULTRAFILTRATION

Removes harmful chemicals, heavy metals, chlorine, odors, discoloration, and other water impurities.

PAC FILTER

Reduces chlorine, tastes, cloudiness, odors, colors and VOCs and other chemicals.

FCF FILTER

FCF Carbon prevents scale buildup and removes impurities for cleaner, healthier drinking water.

Replace the filter regularly to maintain pure and clean water

Filter Name	Recommended Replacement Cycle
UF Ultrafiltration	6-9 Months
PAC Filter	6-9 Months
FCF Filter	6-9 Months

How to Install Filter Element

Tool-Free Replacement, Fast & Hassle-Free

Twist

Twist to unlock and pull out
no tools required

Pull

Simply pull out the old filter and replace
it with a new one

Purified Water Available Without Electricity

When electrical power is not in use or during a power outage, the Luno Tap can continue to dispense ambient-temperature filtered water through the faucet.

This feature ensures uninterrupted access to filtered drinking water for daily use, even when powered functions are unavailable.

Customise

Choose Your Perfect Temperature

Enjoy instant hot water at the temperature you prefer. From preparing baby formula to making tea, coffee, or instant noodles, every cup is ready in seconds.

Elderly

Hot Water Made Simple
Easy to use for a perfect cup of tea

Mothers & Babies

One-Handed Preparation
Prepare formula with one hand while holding your baby

Office Workers

Quick & Convenient
Quickly prepare coffee, tea, or instant noodles

Installation Specification

Essential guidelines for a smooth and accurate installation.

Product Specifications

Model	Hydrixx Luno Tap
Dimension	Faucet W: 220mm x D:45mm x H:395mm Filter Casing W: 115mm x D:305mm x H:290mm
Filtration Type	3-Stage Filtration
Filter Type	UF PAC FCF
Water Temperature	25-100°C
Water Volume	150-500ml
Hot Water Output	18L/H
Power Voltage	220v/50Hz
Water Pressure	0.1-0.4Mpa
Power	1800w
